PART# BBV-2005R

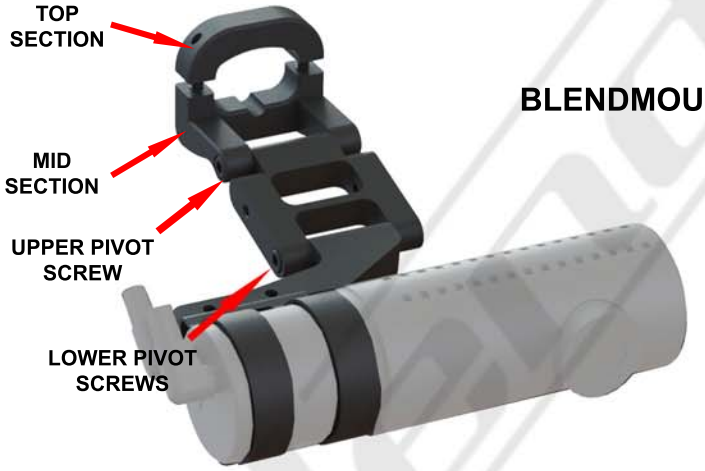
BlendMount® Innovative Mounting Solutions

BLACKVUE

INSTALLATION INSTRUCTIONS FOR BLACKVUE DR750S, DR650S

1 - To install the dashcam into the mount, simply squeeze the two tabs of the spring clip together as shown above. This will increase the diameter of the spring clip and allow you to slide the dashcam into position. Once the dashcam is in position, release the two tabs. The dashcam is now securely attached to the mount.

2 - Remove the two socket head screws so the top portion of the mount may be removed. Position the mount on the bottom of the stem as shown above. The edge of the mount needs to be where the tapered part of the stem gets smaller. Reattach the top portion of the mount. Tighten both screws evenly and just before the mount starts to clamp onto the stem, make sure it is in the correct position as indicated by the red arrows. Proceed to tighten both screws until mount is securely attached to the mirror stem.



BLENDMOUNT ADJUSTMENTS

3 - Using the upper and lower pivot screws, adjust the mount to achieve your desired location of the dashcam. We recommend adjusting it as high as you can. You can also use the spring clip horizontal adjustment screw to help center the dashcam with the mirror as shown above.

CAUTION

DO NOT use this mount if it interferes with the adjustability or the operation of your rear view mirror in any way.
DO NOT use this mount if the dashcam creates an unsafe viewing obstruction.
DO NOT ATTEMPT TO MODIFY THIS PRODUCT. Consult the manufacturer for assistance.
