

INSTALLATION INSTRUCTIONS FOR Hero, Hero2, Hero3/3+, Hero4, Hero +, Hero4 Session, Hero 5, Hero 5 Session

This mount was designed for the **Murakami** manual dim rear view mirror. It is easy to identify as it has a "chili pepper" shaped stem. This mirror is found in many Japanese vehicles.

1 - Install your GoPro camera onto the mount before installing on the rear view mirror. Push the GoPro frame quick release lever and slide the camera into the frame

REMOVABLE CENTER LINK

2 - Lock the frame back in place so the GoPro camera is secure. Make sure if using the Hero 4 Session that the camera is rotated so the power button is on bottom, and the memory card/usb slot is to the right. **IF SHORTER OVERALL MOUNT IS DESIRED, REMOVE CENTER LINK.**

3 - Remove the two socket head screws so the top portion of the mount may be removed. Position the mount on the bottom of the stem as shown above. The edge of the mount needs to be where the tapered part of the stem gets smaller. Reattach the top portion of the mount. Tighten both screws evenly and just before the mount starts to clamp onto the stem, make sure it is in the correct position as indicated by the red arrows. Proceed to tighten both screws until mount is securely attached to the mirror stem.

4 - Install the GoPro onto the mount. After all adjustments are made, be sure to check that the hinge pivot adjustment screws are tight. Grab the long arm of the allen wrench to assure that these screws are securely tightened. **NOTE: The mirror stem may move side to side while adjusting, make sure the stem points straight ahead so the camera does too.**

BLENDMOUNT ADJUSTMENTS

HINGE PIVOT ADJUSTMENT

5 - With multiple adjustments available, you should be able to position your GoPro right where you want it. If you are unable to achieve this, be sure to contact us at 1-888-497-8388

CAUTION

DO NOT use this mount if it interferes with the adjustability or the operation of your rear view mirror in any way.

DO NOT use this mount if the GoPro camera creates an unsafe viewing obstruction.

DO NOT ATTEMPT TO MODIFY THIS PRODUCT. Consult the manufacturer for assistance.
