

INSTALLATION INSTRUCTIONS FOR ESCORT/COBRA EZ MAG MOUNT RADAR DETECTORS

THIS MOUNT MUST BE INSTALLED FROM THE PASSENGER SIDE

Your rear view mirror has minimal clearance between the back side of the mirror and the mirror stem. It is very important that this mount is installed correctly to ensure mirror adjustability is retained.

PLEASE READ THESE INSTRUCTIONS THOROUGHLY BEFORE INSTALLING THIS MOUNT

NOTE: For illustration purposes, the mount and rear view mirror shown in these instructions may look slightly different than YOUR mount and rear view mirror.

This mount was designed for the **Murakami** manual dim rear view mirror. It is easy to identify as it has a "chili pepper" shaped stem. This mirror is found in many Japanese vehicles.

BLENDMOUNT ADJUSTMENTS

- 6** The center-link may be removed if an overall shorter mount length is needed, depending on your rear view mirror and desired position for the RD. With multiple adjustments available, you should be able to position your RD right where you want it.
If you are unable to achieve this, be sure to contact us at 1-707-664-8234

PUSH UP ON FACE AND
TWIST TO REMOVE

MAGNET WILL
RELEASE

- 7** To remove the radar from the magnetic mount, simply tilt the face of the RD up and twist slightly to side, then the magnet will release.

CAUTION

DO NOT use this mount if it interferes with the adjustability or the operation of your rear view mirror in any way.

DO NOT use this mount if the radar detector creates an unsafe viewing obstruction.

DO NOT ATTEMPT TO MODIFY THIS PRODUCT. Consult the manufacturer for assistance.
